## ABOUT ME

Third-year Computer Science Engineering student passionate about Artificial Intelligence, Machine Learning, and Software Development, with a focus on building practical solutions. Strengthening skills in Python, data structures, algorithms, and core AI/ML concepts through hands-on projects and continuous coding. A disciplined, team-oriented learner with strong communication skills and a background in sports.

## EDUCATION

|                                                                                                                         |                    |                     |
|-------------------------------------------------------------------------------------------------------------------------|--------------------|---------------------|
| <b>RAJIV GANDHI JUNIOR COLLEGE OF SCIENCE -</b><br>[Pune, Maharashtra] - Senior Secondary Education (Maharashtra Board) | <b>(63.83%)</b>    | <b>2021 - 2023</b>  |
| <b>PARUL INSTITUTE OF TECHNOLOGY -</b><br>[Vadodara, Gujarat] - B. Tech Computer Science and Engineering (AI)           | <b>(8.05 CGPA)</b> | <b>2023-Present</b> |

### PROGRAMMING LANGUAGES

- Python
- JavaScript
- C Language
- DSA
- Java (basics)

### WEB DEV

- Tailwind CSS
- HTML 5
- React.js
- Django
- Flask

### EXTRAS

- GitHub
- Figma
- Public Speaking
- Soft Skills
- Arduino

## WORK EXPERIENCE

### Team Lead , Career Development Cell, Parul Institute of Technology 2024-2026

- Worked as part of CDC Cell as a Team Lead in marketing and tech team, strategizing outreach and engagement efforts.
- Anchored multiple events, including the CDC Global Funfest Grand Finale & Felicitation Ceremony.
- Contributed to promoting CDC initiatives and increasing student participation.

## HACKATHONS AND COMPETITIONS

### Hackathon & Tech Expo Participant | AI/ML & Software Development

- Led a team in the **AI ML Healthcare Hackathon by My Onsite Healthcare**, developing an AI/ML-based healthcare solution.
- Participated in **Smart India Hackathon**, building a law-focused social media platform to enhance legal awareness.
- Made a Talking Skull project for **Tech Expo**, integrating robotics with AI for interactive speech and motion.
- Robotics Team Member – **Team PU Robocon**  
Worked on robotics automation and engineering problem-solving

## TECHNICAL PROJECTS

- AI/ML-Based Disease Detection & Prediction in Cows (Ongoing)
- Talking Skull – AI Interactive Robotics Project
- CommuLink – Community Social Networking Platform
- Legal Awareness Social Media Platform
- React Job Finder Web Application

## ACHIEVEMENTS AND CERTIFICATIONS

- NPTEL Topper – Computer Networks
- Design and Analysis of Algorithms – CodeTantra
- AWS Academy Graduate – Cloud Foundations
- Techfest IIT Bombay Workshop
